

Welcome to the world of “CEC”

(CONSOLIDATED ENGINEERS & CONSTRUCTORS)

We take this opportunity to introduce ourselves as one of the premium manufacturers & fabricators various construction equipment & infrastructure.

From our inception around a couple of decades back we have come a long way & become a known organization. Initially we used to deal with steel centering, shuttering & scaffolding items. Over the years the horizon widened with the activities diversifying by way of manufacturing various tailor made items like Bridge Girder Shuttering, Tunnel Shuttering, Steel Roof Trusses & finally manufacturing of Steel Bridges.

Ours is basically an Engineering Organization where customer's needs are specifically designed, engineering drgs. made accordingly & finally steel cutted& glued by way of welding to give desired members.

Service & customer satisfaction are our topmost priorities. Quantity & economy the two pillars of engineering are inbuilt in the organization.

Projects Under Taken

1. Fabrication of bridge girders at Tizit&Tikang in Nagaland - 34mtr. each.
2. Fabrication of bridge girder at Doyang, Nagaland – (22mtr. x 2 spans + 34mtr x 1 span)
3. Fabrication of bridge girders at Tuli, Nagaland - 27mtr. span.
4. Fabrication & erection of bridge at Naharlagun, Arunachalpradesh
5. Supply of shuttering & staging at the army depot near Jonai.
6. Supply of shuttering & staging at Narengi in Assam.
7. Supplu of staging & girder shuttering in BogibilBridge(Viadutpart) in Assam.
8. Supply of staging & shuttering for flyover on NH at the junction of Guwahatu Airport Assam.

Besides the above we have supplied our products for the construction of innumerable other projects & buildings.
